

# REPEATER DIRECTORY 1972

---

Published by  
The American Radio Relay League, Inc.,  
Newington, Connecticut 06111

---

This Repeater Directory lists all repeaters and remote base stations that have registered with ARRL up to July 31, 1972. Repeaters are encouraged to be registered with ARRL annually for listing in the Repeater Directory published by ARRL. Register on the special registration card, CD85A, available on request from ARRL. To expedite receiving registration cards, please enclose an addressed stamped envelope. Only those repeaters/remote base stations that have registered in 1972 or re-registered by May 1, 1973, will be included in the next edition of the Repeater Directory.

When re-registering, if the repeater call has changed since the previous listing, please indicate the former call on the registration card. This is important so the old call is deleted from the new Directory.

Repeaters are listed by state and Canadian province. Information listed in the columns is as follows:

Area .... Geographical description of the area served by the repeater.

Call .... Call letters of the repeater. Call letters followed by an asterisk (\*) indicate a CLOSED repeater or remote base station. All others are OPEN.

Input .... Input frequency in MHz.

Output ... Output frequency in MHz.

Mod ..... System input/output modulation. Deviation for FM systems, AM for amplitude modulation.

Pwr ..... Power output of the transmitter, in watts.

Access ... Repeater access is coded as follows:

C = Carrier-operated relay.

Bxxxx = xxxxHz Burst required at the beginning of each transmission.

Wxxxx = xxxxHz Whistle required to start repeater.

Txxxx = Touch-Tone code required to start repeater.

PLxxxx = Private Line, continuous tone required.

Ref ..... Reference for special information necessary to describe the repeater. A = Autopatch. RB = Remote Base. Reference codes are interpreted at the bottom of each page.

Elev .... Elevation of the repeater in feet above local terrain.

Sponsor .. Sponsors are listed by call letters only or by organization.

Source ... Call letters of the person who sent the most recent information.

Date .... Date the listed information was submitted.

Space has been left at the end of many state and province listings so you can add other repeaters not listed.

#### AREA FREQUENCY COORDINATORS

Anyone considering the installation of a repeater should check with the frequency coordinator for his area. Coordinators are volunteers who keep extensive records of repeater input, output and control frequencies, including those not published in directories at the request of the owners. The coordinator will offer suggestions about the best choices for frequencies for a proposed "machine" to hold interference with other repeaters and simplex channels to a minimum.

---

Reference (Ref) AI = Output frequency for all inputs 448.5875 (30 watts) and 448.6125 (30 watts).  
 Also 146.55 (60 watts) output for 440 MHz inputs.  
 AJ = 1.3 minute timer.  
 AK = 1 minute timer; sometimes B1800 access.  
 A = Autopatch.  
 AL = Also operates as a Remote Base.  
 AN = Remote Base 146.94, 146.82, 146.76, 146.34, 146.46, 146.16, 146.52. Also  
 52.525 and 52.96. Coverage to Arizona thru K7RMA.  
 AD = RACES Repeater.  
 AP = Remote Base AM-AM 10 watts: 145.17, 145.22, 145.425, 146.25, 146.98, 147.24,  
 147.66. FM 15-15 100 watts: 146.46, 146.76, 146.94, 146.82. Also 221.63  
 AM output.  
 AQ = Output also high level AM.  
 AR = Also Remote Base 94/94 and 46/46 simplex use.  
 AS = 147.24 input closed.  
 AT = Remote Base linked to WA6UGQ, WA6TTL, and WA7HXO.  
 RB = Remote Base.

Reference (Ref) A = Autopatch.  
 BJ = This is also 10 watt control link with other tones.  
 BK = TT linked to KLMNS, Derry NH.  
 BL = Autopatch. Linked to WA3FVP, Wheaton MD upon command. Verbally ID repeater.  
 BM = Continuous tape log. Give 24 hour time at start and end of QSO.  
 BN = Continuous tape log. Give 24 hour time. Satellite receiver in DC.  
 BP = TT Autopatch. Call sign depends on control station.  
 BQ = Tape log runs first 15 sec. Give local 24 hour time.

ARRL VHF REPEATER ADVISORY COMMITTEE (VRAC)

The VRAC, a Board-authorized advisory group, provides a greater opportunity for direct participation in League affairs by the membership. It affords a more organized way for members to register their ideas and their opinions.

The VRAC consists currently of nine members appointed by the League President plus a director who is Board liaison and a Headquarters staff member providing headquarters liaison. At this writing, the composition of the VRAC is as follows:

Gilbert J. Kowols, W9BUB, Chairman  
216 Belle Plaine Ave.  
Park Ridge, IL 60068

Arthur M. Gentry, W6MEP  
7832 Jellico Ave.  
Northridge, CA 91324

Leon Giannakeff, VE3BUI  
1107-35 Tobermory Rd.  
Downview, Ontario, CANADA

Jon Marcinko, W7FHZ
