# REPEATER DIRECTORY 1975/1976

The American Radio Relay League, Inc.  
Newington, Connecticut 06111

This Repeater Directory lists all repeaters that have been registered with ARRL up to April 1, 1975. Repeaters are encouraged to be registered with ARRL annually for listing in the Repeater Directory published by ARRL. Register on the special registration card, CD85A, available on request from ARRL, 225 Main Street, Newington, CT 06111. To expedite receiving registration cards, please enclose an addressed stamped envelope. Only those repeaters that have been registered in 1975 or re-registered by April 1, 1976 and indicate a WR call, will be included in the next edition of the Repeater Directory.

When re-registering, if the repeater call has changed since the previous listing, please indicate the former call on the registration card. This is important so that it will be obvious as to what repeater information is being updated.

Repeaters are listed by state, Canadian province and foreign country. Information listed in the columns is as follows:

Location .. Town, city or other geographical identification of the location of the repeater.

Area ..... Section of the state in which the repeater is located. NOT necessarily the area covered by the repeater.

Call ..... Call letters of the repeater. Call letters followed by an asterisk (\*) indicate a CLOSED repeater. Others are open.

Input ..... Input frequency in MHz.

Output .... Output frequency in MHz.

Mod ..... Modulation capability in kHz.

Access .... Repeater access is coded as follows:

C = Carrier-operated relay.

Bxxxx = xxxkHz Burst required at the beginning of each transmission.

Wxxxx = xxxkHz Whistle required to start repeater.

Txxxx = xxxTouch-Tone code required to start repeater.

PLxxxx = Private Line, continuous tone required.

Ref ..... Reference for special information. A = Autopatch. R = RACES operation only.  
P = Portable repeater. S = Special operation (STA granted).

Sponsor ... Sponsors are listed by organization or call letters (individuals).

Source .... Call letters of the person who sent in the most recent information.

Date ..... Date the listed information was submitted.

The source of some of the information used in this Repeater Directory was received from repeater councils or associations. The abbreviations used for these groups are given below.

CARC - California Amateur Relay Council  
CVRA - Carolinas-Virginia Repeater Association  
FRC - Florida Repeater Council  
IRC - Illinois Repeater Council  
IRC - Indiana Repeater Council  
IRC - Iowa Repeater Council  
MARC - Michigan Area Repeater Council  
MRC - Missouri Repeater Council  
NVFMA - Northern Virginia FM Association  
OARC - Ohio Area Repeater Council  
SCRA - Southern California Repeater Association  
UNYRC - Upper New York Repeater Council

ARRL VHF REPEATER ADVISORY COMMITTEE (VRAC)

The VRAC, a Board-authorized advisory group, provides a greater opportunity for direct participation in League affairs by the membership. It affords a more organized way for members to register their ideas and their opinions.

The VRAC consists currently of 11 members appointed by the League President plus a Board liaison and a Headquarters staff member providing headquarters liaison. At this writing, the composition of the VRAC is as follows:

Charles R. Flanagan, W6OLD, Chairman  
6427 West 83rd Street  
Los Angeles, CA 90045

Richmond Shreve, Sr., W8GRG  
2842 Winthrop Road  
Shaker Heights, OH 44120

Lewis D. Collins, W1GXT  
11 Brattle Street  
Arlington, MA 02174

Jack D. Forbing, K9LSB  
1416 Lakewood Drive  
Ft. Wayne, IN 46819

Frederick A. Booth, WA2GCX  
206 Hillary Drive  
Rochester, NY 14624

Donald J. Manson, K0TVO  
2302 North Oakland  
Columbia, MO 65201

John M. Cox, K3GEG  
4513 Orangewood Lane  
Bowie, MD 20715

Howard R. Cowling, VE3WT  
64 Dunkeld Avenue  
St. Catharines, ON  
CANADA

William Parris, K4GHR  
6210 Gothic Court  
Charlotte, NC 28210

Board Liaison:  
Carl L. Smith, W0EJW  
1070 Locust Street  
Denver, CO 80220

John A. Mason, W5NSQ  
7727 La Risa Drive  
Dallas, TX 75240

Headquarters Liaison:  
Lew McCoy, W1CF/W1ABH  
225 Main Street  
Newington, CT 06111

Robert Dreste, K7VOR  
5040 North 15th Avenue  
Phoenix, AZ 85013

Anyone considering the installation of a repeater should check with the frequency coordinator for his area. Coordinators are volunteers who keep extensive records of repeater input, output, and control frequencies, including those not published in directories at the request of the owners. The coordinator will advise on available frequencies for a proposed machine to hold interference with other repeaters and simplex channels to a minimum.

After consideration of input from many sources, ARRL, under guidance from the ARRL VHF Repeater Advisory Committee, adopted band plans for the use of the repeater segments at 50, 146, 222, and 450 MHz. The band plans are designed to make the best possible use of these frequencies within the technical constraints under which amateurs must operate. Several repeaters listed in this Directory do not conform to these plans. At this time, local coordination takes precedence over the national plan when the two are found to be in conflict. However, those repeaters whose frequencies have not been approved by the appropriate area frequency coordinators are listed here in the expectation that they will be changed to conform with the national and/or area standards in the near future.

450-MHz Band Plan

442.00 - 444.95	Repeater Outputs
445.00 - 446.95	Simplex, Aux links
446.00	National Simplex Frequency
447.00 - 449.95	Repeater Inputs

Notes: Repeater input/output spacing is 5 MHz, 50 kHz channel spacing. It is suggested that frequency coordinators do not assign 442.00 MHz as an output but start at 442.050 MHz. Because 442.00 is a subband edge, a repeater output on exactly 442.00 MHz could be in violation of the FCC rules if a portion of the signal extended below the center frequency.

50-MHz Band Plan

146-MHz Band Plan

1000 kHz spacing: 20 kHz channels

\*National Simplex Frequency  
\*\*Optional in region. Check with frequency coordinator.

<sup>1</sup>The reserve frequencies listed are guard channels for the model radio control frequencies, every 100 kHz from 53.1 through 53.8 MHz. In the event that additional repeater channels are needed, these reserve channels could be allocated. For the present, it is suggested that frequency coordinators do not assign these channels.

# EPEATE TIPS

## 'S

## O 'TS

**DO KEEP ALL TRANSMISSIONS SHORT.** Emergencies don't wait for monologues to be finished. If you talk to hear your own voice what you want is a tape recorder, not an fm rig.

**DO THINK BEFORE YOU TRANSMIT.** If you can't think of anything worth saying, don't say anything.

**DO PAUSE A COUPLE OF SECONDS BETWEEN EXCHANGES.** Someone with a high-priority need for the repeater may want to break in; also, some repeaters are configured so that a brief pause in transmissions is necessary to reset the three-minute timer.

**DO IDENTIFY PROPERLY.** "W6XYZ mobile" is not enough, even if you're three hundred miles from another call area; "W6XYZ mobile 6" is required. You must give the call of the station with whom you were in contact at the end of the contact.

**DO BE COURTEOUS.** A repeater is like a telephone party line, and requires the same kind of cooperation in its use.

**DO USE SIMPLEX WHENEVER POSSIBLE.** Leave the repeaters available for those who need them.

**DO USE THE MINIMUM POWER NECESSARY** to maintain communication. Not only is this an FCC requirement, it's also common courtesy.

**DO SUPPORT YOUR LOCAL REPEATER CLUB.** even if it doesn't require all users to be members. Maintaining a good machine is an expensive undertaking, and you should do your share.

**DON'T ABUSE AUTOPATCH PRIVILEGES.** business messages are not permitted in the amateur service. Don't force the control operator to terminate your call in order to avoid a violation.

**DON'T BREAK INTO A CONTACT** unless you have something to add. Interrupting is no more polite on the air than it is in person.

**DON'T FORGET THAT AMATEUR RADIO IS ALLOCATED FREQUENCIES BECAUSE IT IS A SERVICE,** not just a hobby. Don't neglect the public service aspects of vhf fm communication, such as accident reporting, emergency preparedness, etc.

**DON'T TRY TO PROVE WHAT A GREAT OPERATOR YOU ARE** by criticizing the operating techniques of others on the air. Instead, set an example which others will be proud to follow.

**DON'T MONOPOLIZE A REPEATER.** The best repeater users are the ones who do a lot of listening, and little transmitting.

**DON'T FORGET THAT WHAT YOU SAY OVER A REPEATER CAN BE HEARD OVER THOUSANDS OF SQUARE MILES** by anyone with an inexpensive "public service band" monitor. These people are potential hams; if they like what they hear on the air, they will want to get licenses and join us. Don't leave them with a bad impression of our hobby by making thoughtless or off-color remarks.

RD I would like to become a member of ARRL and help support its many services to amateurs and amateur radio. Here's my \$9.00 in the U.S., \$10.00 in Canada, \$10.50 elsewhere, U.S. funds. Sign me up for a year's membership and twelve big issues of *QST*! Family membership, without *QST*, is available for \$2.00 per year. (Life membership is available at twenty times the annual rate. Write ARRL Headquarters for details.)
